

Wyoming Valley
Children's Association

About the Event

Celebrating April - Month of the Young Child

Why

Children are the future. Programs that help children develop to be the best they can be need support. The proceeds from "Do It for the Kids" are used to offset the costs of providing therapy, education, and related services to children with developmental disabilities such as autism, speech delays, and Down Syndrome. WVCA serves children age's birth to 5 years. Our mission is "to provide the highest quality educational, therapeutic and supportive services to ensure the greatest developmental potential of children in partnership with their families."

Who

We need runners, walkers, volunteers, and sponsors to make this a fun and successful event! Come out, promote Wyoming Valley Children's Association, and make a difference!
